## **BOYD BACKS PLAN TO INVEST IN RENEWABLE ENERGY, CREATE NEW JOBS**

WASHINGTON, D.C.—Congressman Allen Boyd (D-North Florida) today supported the Renewable Energy and Energy Conservation Tax Act.

“This legislation marks a major investment in innovation and American job creation while still adhering to our commitment to the environment,” Boyd said.

The Renewable Energy and Energy Conservation Tax Act extends and expands tax incentives for renewable energy production and energy conservation.

“Let’s innovate, not mandate, and that’s exactly what this legislation is about—providing the incentives for innovation and job creation,” Boyd said.

The Renewable Energy and Energy Conservation Tax Act has been endorsed by various renewable energy and conservation groups.
